

ENCINA WASTEWATER AUTHORITY

DATE: August 2022
POSITION TITLE: Operator II
DEPARTMENT: Operations
REPORTS TO: Shift Supervisor
FLSA STATUS: Non-exempt

POSITION SUMMARY: Under the general supervision of the Operations Supervisor, this position performs: performs operational activities and limited maintenance of complex secondary and tertiary treatment systems at the Encina Water Pollution Control Facility (EWPCF), Remote Facilities (Agua Hedionda Pump Station, Buena Vista Pump Station, Buena Creek Pump Station, Raceway Basin Pump Station, and Carlsbad Water Recycling Facility (CWRF); or Resource Recovery (biosolids handling and recycling, alternative fuels, and cogeneration), and other Authority operated facilities; and, performs other related duties as assigned.

SUPERVISORY DIMENSIONS: This position exercises no direct supervision of staff. The incumbent of this position may provide training and guidance to Operator I and Operator-in-training positions.

ESSENTIAL JOB DUTIES:

- Promote the Authority's Mission, Vision, and Values.
- As directed, operates complex treatment processes in order to meet all permit requirements safely and efficiently. May provide guidance and training to Operator I/ Operator-in-Training positions.
- As directed, operate auxiliary facilities such as potable and reclaimed water systems, chemical handling, solids handling, alternative fuel handling, pipeline conveyance, pumping stations, compressed air systems, co-generation facilities, and any other Authority operated facility as assigned.
- May temporarily be assigned to fulfill the duties of a Shift Supervisor in the absence of an on-shift Shift Supervisor and Lead Operator. Incumbents performing this role must hold a valid Grade III Wastewater Operator Certification (or higher) issued by the State of California Water Resources Control Board.
- Monitor, troubleshoot and perform minor repairs on various equipment including pumps, motors, regulators, etc. Perform preventative maintenance tasks on mechanical equipment.
- Collect samples and safely perform laboratory testing for evaluation and process control. Informs Shift Supervisor/ Lead Operator of results and may adjust processes within authorized parameters.
- Operate Authority vehicles in accordance with EWA Vehicle Use Policy.
- Operate forklifts, utility carts, scissor lifts, aerial lifts, semi-tractors with trailers, and other such equipment within Authority operated facilities.

- As directed, perform daily plant checks; inspects valves, pumps and equipment using sight and sound analysis; and monitor instrumentation and control systems to maintain desired results.
- As directed, performs wastewater treatment tasks such as emergency and scheduled shutdowns, cleaning of tanks and equipment, and operation of process controls.
- Inspect and report problems in Authority operated facilities to Shift Supervisor/ Lead Operator.
- Perform general housekeeping tasks and building maintenance at Authority operated facilities.
- Interface with the public, trucking firms, contractors, consultants, member agencies, and vendors. May conduct facility tours and information presentations as assigned.
- Utilize automated systems, such as SCADA projects and databases to access information and monitor operations. Inform Shift Supervisor/ Lead Operator of observed deficiencies or issues.
- Under direction of Shift Supervisor/ Lead Operator, submit maintenance service requests for approval.
- Respond to emergencies at Authority operated facilities. Participate in incident command events and may serve as incident commander in the absence of Shift Supervisor/ Lead Operator.
- As directed, provide guidance and hands-on training to less experienced Operator I/ Operator-in-training for systems, equipment, and safety items, as assigned.
- Prepare or review procedures, programs, logs, charts and reports as assigned.
- Ensure that Authority safety policies and procedures are followed and maintained during operations, maintenance, or testing.
- Interface with Technical Services Department to facilitate preventative maintenance and/ or corrective work orders, emergency response, and other coordinated departmental activities as needed.
- Perform isolation, shut-down, tag-out and start-up of Authority operated equipment in accordance with Authority policies as assigned.
- Receive chemical deliveries, ensure procedures are adhered to including monitoring tank levels to ensure adequate capacity, ensuring proper valve arrangement, paperwork filing and documentation. May order chemicals as directed.

Specific types of knowledge, skills, and physical abilities required for these duties:

- Knowledge of the operating principles of complex secondary and tertiary treatment systems, including but not limited to digestion processes, solids handling, co-generation, activated sludge, primary treatment, disinfection, wastewater conveyance, and thickening processes.
- Knowledge of and ability to use the types of equipment used in the wastewater treatment process such as pumps, motors, valves, filters, engines, meters, blowers and compressors, and other Authority operated equipment.
- Knowledge of and experience with tools and equipment necessary to perform limited repairs to mechanical equipment.

- Knowledge of safety practices and procedures as they apply to wastewater and water recycling treatment facilities, sewage conveyance systems, mechanical equipment, chemical handling, and gas management systems.
- Ability to investigate and compile information and about operations and present it in an organized written or oral form to the Shift Supervisor/ Lead Operator.
- Advanced skills in reading, writing, and arithmetic; effective verbal communication skills; and computer skills including data entry and word processing.
- Ability to establish and maintain cooperative working relationships in order to foster a team approach.
- Ability to perform strenuous physical activities for extended periods of time, including lifting, bending, carrying, crawling, and climbing.
- Ability to withstand exposure to varying weather conditions, work in wet and/or odorous areas, work in confined spaces.
- Ability to respond to 24-hour call-ins, work varying hours, weekends, holidays and days off; and perform stand-by duty as needed.
- Ability to think and respond quickly under pressure and in emergency situations.
- Ability to work independently and safely.
- Knowledge of Microsoft Office applications (i.e., Excel, Word, PowerPoint, Teams, Outlook). Ability to learn WIMS, and Authority's requisition and employee self-services program.

EDUCATION REQUIREMENT: Graduation from High School or equivalent and nine (9) educational points as defined by State of California Water Resources Control Board (SWRCB) education requirements for operator certification.

EXPERIENCE REQUIREMENT: Two (2) years progressively responsible experience in the operation and maintenance of a wastewater treatment plant.

LICENSE REQUIREMENT: Possession of a valid California Class C Driver's License and the ability to be insured under the Authority's automobile insurance coverage. Note: Failure to maintain a valid California Driver's License constitutes possible cause for termination.

CERTIFICATION REQUIREMENT: Possession of a valid Grade II Wastewater Operator Certification issued by the State of California Water Resources Control Board (SWRCB) and maintenance of the certificate in an active status. Must successfully complete EWA's Operator II Performance Qualification Standards (PQS) program within 12 months of appointment to this position.

PHYSICAL AND MENTAL DEMANDS:

Physical Demands

While performing the duties of this position, the employee is regularly required to walk; talk or hear by telephone and in person; sit; smell; use hands to finger, handle, feel or operate objects, tools, or controls; reach and lift with hands or arms. The employee is frequently required to stand, stoop, and kneel for prolonged periods of time.

Specific vision abilities required by this job include close vision, distance vision, the ability to distinguish colors and shades, depth perception, and the ability to adjust focus. The employee must regularly lift and move up to 50 pounds.

Mental Demands

While performing the duties of this position, employees are regularly required to use oral and written communication skills, read documents or instructions; analyze and solve problems; observe and interpret data or information; use mathematical reasoning; learn and apply new information or skills; perform detailed work; work under changing, intensive deadlines with constant interruptions; and perform multiple concurrent tasks.

WORK ENVIRONMENT: While performing the duties of the job, the employee may be exposed to toxic or hazardous chemicals, slip, trip, and fall hazards. The noise level in the work environment is quiet to loud. Hearing protection is required in some work areas.

RESPIRATORY PROTECTION POLICY/PROGRAM REQUIREMENT: This position must comply with the Authority's Respiratory Protection Policy & Procedures, which requires the use of respirators when conducting specific tasks.

ADDITIONAL QUALIFICATIONS: Possession of a good driving record and the ability to be insured by the Authority's insurance carrier; and the ability to read, write, speak, and comprehend English.

RIGHT TO WORK REQUIREMENT: Documentation of eligibility to work in U.S. will be required as a condition of employment.

The Encina Wastewater Authority does not discriminate against any applicant for employment on the basis of age, race, color, sex, ancestry, national origin, pregnancy, marital status, sexual orientation, sexual identity, religion, military status, medical condition, mental disability, and physical disability.

The list of essential job duties contained in this job description is not exhaustive and may be supplemented as necessary. This position performs other related duties as assigned, some of which may become essential to the position.

Any offer of employment for this position is contingent upon receipt of acceptable results from a background investigation, physical examination, and a drug screen.
