- Promotes the Authority's Mission, Vision, and Values.
- As directed, operates complex treatment processes in order to safely and efficiently meet all regulatory permit requirements.
- As directed, operates auxiliary facilities such as potable and reclaimed water systems, chemical handling, solids handling, alternative fuel handling, pipeline conveyance, pumping stations, septic waste disposal, compressed air systems and cogeneration facilities.
- Monitors, troubleshoots and performs minor repairs on various equipment including pumps, motors, regulators, etc.
- Performs laboratory testing for operational evaluations and process control.
- Drives Authority vehicles.
- Operates fork lifts, utility carts, dump trucks, semi-tractors, trailers and other equipment within the Authority operated facilities.
- Performs daily plant checks; inspects valves, pumps and equipment; and monitors instrumentation and control system.
- As directed, performs wastewater treatment tasks such as emergency and scheduled shutdowns, cleaning of tanks and equipment, and operation of process controls.

- Inspects and reports problems with in plant treatment processes.
- Performs general housekeeping tasks and maintains cleanliness of all facilities.
- Interfaces with the public, trucking firms, contractors, consultants vendors, and members of the public.
- Monitors plant performance via the SCADA system.
- Performs preventive maintenance tasks on mechanical equipment.
- Monitors cogeneration facilities and performs limited adjustments to the system.
- Submits maintenance service requests for approval.
- Responds to plant and pump station emergencies.
- Conducts facility tours.
- As directed, provides operations staff with hands-on training for systems, equipment and safety items.
- Prepares or reviews procedures, programs, logs, charts and reports.
- Ensures safety and plant compatibility during operations, maintenance or testing activities.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. Reasonable accommodations will be made to enable qualified individuals with disabilities to perform the essential functions.

Specific Types of Knowledge, Skills, and Physical Abilities Required for These Duties:

- Advanced knowledge of the operation of secondary and tertiary treatment facilities, pump stations, anaerobic solids digestion, solids thickening and dewatering, chemical handling, chlorination, and process controls.
- Advanced Knowledge of and ability to use the types of equipment used in the wastewater treatment process such as pumps, motors, valves, filters, engines, meters, blowers and compressors.
- Advanced Knowledge of safety practices and procedures as they apply to wastewater treatment facilities, mechanical equipment, chemical handling, and gas management systems.
- Ability to investigate and compile information and present it in an organized written or oral form.
- Advanced skills in reading, writing, and arithmetic; effective verbal communication skills; and computer skills including data entry and word processing.
- Ability to establish and maintain cooperative working relationships in order to foster a team approach.

- Ability to perform strenuous physical activities for extended periods of time, including lifting, bending, carrying, crawling and climbing.
- Ability to withstand exposure to varying weather conditions, work in wet and/or odorous areas, work in confined spaces.
- Ability to respond to 24-hour call-ins; work varying hours, weekends, holidays and days off; and perform stand-by duty as needed.
- Advanced Knowledge of and experience with tools and equipment necessary to perform limited repairs to mechanical equipment.

EDUCATION/EXPERIENCE REQUIREMENT: Graduation from high school or equivalent and nine Continuing Education Units (CEUs) in wastewater treatment or science. 18 months progressively responsible experience in the operation and maintenance of a wastewater treatment plant.

LICENSE REQUIREMENT: Possession of a valid California Class C Driver's License, ability to be insured under the Authority's automobile insurance coverage, and ability to provide evidence of current personal automobile liability coverage. Note: Failure to maintain a valid California Driver's License constitutes possible cause for termination.

CERTIFICATION REQUIREMENT: Possession of a valid Grade II Wastewater Operator Certification issued by the State of California Water Resources Control Board (SWRCB) and maintenance of the certificate in an active status. Successfully complete the Authority's Performance Qualification Standards (PQS) program for Operator II within 24 months.

PHYSICAL AND MENTAL DEMANDS:

Physical Demands

While performing the duties of this position, the employee is regularly required to walk; talk or hear by telephone and in person; sit; smell; use hands to finger, handle, feel or operate objects, tools, or controls; reach and lift with hands or arms. The employee is frequently required to stand, stoop, and kneel for prolonged periods of time.

Specific vision abilities required by this job include close vision, distance vision, the ability to distinguish colors and shades, depth perception, and the ability to adjust focus. The employee must regularly lift and move up to 50 pounds.
